## PROFESSIONAL EXPERIENCE

### Senior Full Stack Developer | EMCI TV – maBible

*Québec, QC | 01/2026 - Present*

- Contributing to the **front-end development** of the maBible web application and backoffice, implementing **pixel-perfect UI** from Figma using **ReactJS, Tailwind CSS, and Shadcn/ui**.
- Contributing to **React Native** mobile app development, maintaining consistent UX across iOS and Android.
- Participating in **Scrum ceremonies** (sprint planning, stand-ups, demos) in close collaboration with the lead developer and product owner.
- Performing thorough **code reviews**, writing technical documentation, and enforcing coding best practices across the codebase.
- Leveraging **Claude Code, Copilot, and vibe coding** workflows to accelerate feature delivery.

### IT Manager and FullStack Dev | TALONMBA HOLDING & FINANCES INC.

*Trois-Rivières, QC | 06/2025 - 01/2026*

- Translated IT directives into actionable plans, leading **10+ strategic digital projects** aligned with business objectives.
- Drove **digital transformation and automation**, reducing costs by **20%** and increasing productivity by **15%**.
- Strengthened **cybersecurity** with new policies and tools.
- Implemented key **KPIs** for real-time IT performance monitoring.

### CTO & Full Stack Developer | Dooke

*Ocala, Florida | 07/2024 - 06/2025*

- Developed an **English learning mobile app** (iOS & Android) with interactive lessons, quizzes, and videos, reaching **10k+ active users** and earning a **4.8★ average rating** on app stores.
- Designed and implemented a **modern web platform** with Node.js, Next.js, and TypeScript, reducing load times by **30%** and increasing user retention by **25%**.
- Integrated **Stripe** for secure, automated payments, processing **$2k+ monthly transactions**.
- Optimized performance and security with **Cloudflare**, achieving **99.9% uptime** and reducing response time by **200 ms**.

### Growth Engineer | MOMENTUM.IO

*Rosario, Santa Fe, Argentina | 01/2024 - 05/2024*

- Designed and optimized systems to improve **SDRs efficiency**, resulting in a **20% increase** in top-of-funnel operations.
- Developed **scalable solutions** using Node.js and Express to boost growth and streamline sales processes.
- Identified and executed new growth opportunities through creative, **data-driven strategies**.

### Full Stack Developer | Tribal Consulting

*Rosario, Santa Fe, Argentina | 01/2022 - 01/2024*

- Specialized in **code refactoring**, improving code quality and optimizing application performance for clients across multiple industries.
- Implemented **robust security layers** to protect sensitive data, reducing security incidents by **40%** across client applications.
- Delivered high-quality solutions by integrating client feedback, achieving a **95% customer satisfaction rate**.

### IT Development Manager | Avalian *(part-time)*

*Rosario, Santa Fe, Argentina | 12/2022 - 05/2023*

- Defined and implemented **development strategies** to align engineering output with business goals.
- Managed and coordinated **development projects**, ensuring on-time delivery and quality standards.
- Carried out **testing and QA processes** to ensure all developments met user and product requirements.

### Freelance Full Stack Developer

*Remote | 03/2019 - 05/2021*

- Designed and developed **web and mobile applications** for multiple startups, handling projects end-to-end from architecture to deployment.
- Built **secure backend systems** with authentication, API integrations, and data protection best practices.
- Delivered **responsive web interfaces** and cross-platform mobile experiences, adapting to each client's tech stack and requirements.

## EDUCATION

### Bachelor's Degree in Systems Engineering

*Universidad Tecnológica Nacional, Rosario, Santa Fe | 03/2019 - 12/2023*
